

Manual : N° 7404

IM 5000

Chemical sealing

Important information

The **fixing** of the **high hinges** and of the **step bearings**, on gates with **IM 5000 integrated operators**, must **imperatively** be made with the **chemical seal** (except for aluminium posts and aluminium threshold) supplied in the accessory package, in order to ensure the correct operation of the gate **to be covered by a warranty** on the gate or the integrated operator.
